

## **Press Release**

**22. Nov. 2009**

**CASCO are the new suppliers to the GB junior ski team for Helmets and Goggles. The team have been supplied with the SP Race helmets and goggles fitted with the new Vautron lens. They took delivery at the Hemel Snow Dome on Sunday 22 Nov.**

**CASCO have a reputation of supporting top athletes. The safety aspect is the primary concern and is taken to the highest levels. Probably the highest accolade for ski helmet safety is that most of the European Ski jumping teams use CASCO. New technology allows the helmet to be constructed in a unique way giving an ultra light weight and safe helmet. Sir Chris Hoy and many of the British Olympic cycling track squad wear the CASCO helmets. The ski helmets and cycle helmets are extensively tested in wind tunnels for aerodynamic efficiency.**

**CASCO ski helmets and goggles are the cutting edge of design and technology. The Edelholz style has a stunning Wood laminate finish!**

This being probably the strongest material used in helmet manufacture today. The Vautron lenses come from the technology used in the Apache helicopter widow screens. It is shatterproof, optically corrected and photocromic.

CASCO wish the GB junior team every success and enjoyment with your new kit.
